4 to 6 ft.....	40c	35c	30c

Summer Varieties

- GRAVESTONE**—Large, deep red and orange, best flavored.
- RED GRAVESTONE**—Bright red, juicy flesh, excellent flavor, good shipper and desirable as a Commercial sort.
- WHITE ASTRACHAN**—Fruit large; skin greenish white, flesh rather coarse and acid.
- OLDENBURG**—Large, striped red and yellow, bears young.
- RED ASTRACHAN**—Large, deep crimson, rich acid flavor.
- RED JUNE**—Medium, red, ripens early.
- YELLOW TRANSPARENT**—Medium, pale yellow, the best early apple.
- GOLDEN SWEET**—Large yellow, early sweet apple, good bearer.

Fall Varieties

- FAMEUSE (or Snow)**—Red on sunnyside, white flesh.
- GRIMES GOLDEN**—Rich golden yellow, excellent eating and cooking.
- JONATHAN**—Brilliant red, juicy, well flavored and good bearer.
- KING**—Large, striped red, good cooking, productive.
- ORTLEY**—Sometimes called white bellflower, fine flavored.
- RHODE ISLAND GREENING**—Large, yellow green, good eating and cooking.
- WEALTHY**—Medium, red, early bearing and hardy.
- YELLOW BELLFLOWER**—Large, pale yellow, oblong.
- FALL PIPPIN**—Very large yellow apple, fine cooker and excellent to eat.

Winter Varieties

- ARKANSAS BLACK**—Medium, dark maroon, firm, keeps well.
- BALDWIN**—Large round, deep bright red, juicy and crisp.
- BLACK TWIG**—Resembles Winesap.
- BLACK WINESAP**—A new, solid, dark red Winesap; commercial.
- BRIGHT RED ROMIE**—A magnificent "double red" Rome Beauty; very early bearer, excellent shipper; a sure cropper.
- CORTLAND**—New, from N. Y. Station; beautiful large red apple, late keeper and wonderful shipper.
- DELICIOUS**—Brilliant red, wonderfully flavored, large and juicy.
- DOUBLE RED STAYMEN**—New, solid red Staymen Winesap; shipper and roadside apple; immense.
- M-INTOSH RED**—Red, hardy and productive, keeps well.
- NORTHERN SPY**—Large, striped red, excellent eating apple.
- RED DELICIOUS**—Large brilliant red, flavored, sweet, lightly touched with acid. Flesh fine grained, crisp and juicy. Wonderful for cider, preferred for eating. Good keeping qualities.
- RED ROMIE BEAUTY**—Large red, excellent shipper.
- RED SPY**—New, from N. Y. Exp. Station; typical Spy except in color; solid bright red; very hardy and productive.
- ROME BEAUTY**—Large, yellow, shaded red, ships well.

APPLES—Continued

- SPITZENBERG**—Large, striped red, rich and juicy.
- STAYMAN WINESAP**—Yellow, striped red, firm, rich.
- TALMAN SWEET**—Medium, tinged red, firm and sweet.
- WHITE WINTER PEARMAIN**—Excellent all around variety, good keeper.
- WAXEN**—Large round yellow fruit, excellent for jelly.
- WAGENER**—Early bearer, fine grained, keeps well.
- WINESAP**—Medium, yellow streaked with red.
- WINTER BANANA**—Large, pale yellow, good for desserts.
- YELLOW NEWTON**—Wonderful keeper, firm and juicy.
- KING**—Very large, yellowish shaded red.
- JONATHAN**—Medium, light yellow, covered with red stripes.
- YELLOW DELICIOUS**—A wonderful apple; an early bearer of beautiful yellow apples; good shipper.
- WEALTHY**—A high quality striped red and yellow dessert apple; bears very young; very prolific.

New Introductions of Merit, 50c Each
Improved Yellow Transparent.
New Late Gravenstein.

Crab Apples

- HYSLOR**—September to October. Fruit medium; yellow with shadings crimson maroon; flesh fine, firm, yellow, astringent; bears abundantly. Ornamental. One of the most desirable sorts for culinary purposes.
- RED SIBERIAN**—An inch in diameter; clusters; bears young and abundantly. August to September.
- FRANKENBEND**—September. Fruit medium to large; color brownish-yellow with bluish of carmine; flesh firm and crisp, yellowish, fine grained, very juicy, acid.
- WHITNEY**—August. Fruit large; yellow, striped with red and covered with red on sunny side; flesh yellow, very juicy and fine grained; flavor rich and almost sweet.
- YELLOW SIBERIAN**—Medium, round, golden-yellow. Vigorous grower. September.

Quinces

- ORANGE**—Large golden; excellent flavor.
- CHAMPION**—Very large, bright yellow.
- PINEAPPLE**—Flavor is suggestive of pineapple; fruit resembles Orange quince; making superior jelly; can be eaten raw, has a most delicious flavor, not equalled by any other quince.

4-6 ft.....	60c	55c	50c

Five trees at 10 rate; 50 at 100 rate.

Cherries

In planting a Cherry orchard care should be taken not to plant trees too close together; select a dry soil for the Cherry, as a rule, although it is so hardy a tree that it will thrive in a great variety of soil, yet a good sandy, or gravelly loam is best. Use same care in planting as other trees.

Orchardists are resorting more and more to the planting of varieties of Cherries that are strong pollinizers. Experience seems to demonstrate that such varieties as Black Oregon, Black Tartarian, Black Republican, and Centennial are the best varieties to use for this purpose. Usually about one in every nine trees has proven to be the right proportion to use of these pollinizers.

PRICE OF CHERRIES ON MAZZARD ROOT

5 at 10 rate; 50 at 100 rate; 300 at 1000 rate.			
	Each	10	100
2 to 3 ft.....	30c	30c	25c
3 to 4 ft.....	40c	35c	30c
4 to 6 ft.....	45c	40c	35c

Special Note to Commercial Planters: Our cherry trees are grown from heaviest consistent producing orchards in Wasco County, Oregon. Pollinizers offered are taken from same Proven Blocks of Royal Ann, Bing, and Lambert.

Commercial Sorts: Bing, Lambert, and Royal Ann.
Pollinizers: Black Tartarian, Black Republican, Waterhouse, and Black Oregon.

NEW CHERRY INTRODUCTIONS OF MERIT:

- SPECIAL PRICE, 4-6 ft.....** .60c each; 10 @ 50c
- GOLD CHERRY**—An amazing new sweet cherry as hardy as any sour cherry sort. An early summer Gold Cherry. Wonderful for preserving and Maraschino.

Sweet Varieties

- BING**—Almost as large again as the Black Republican; flesh very solid, flavor of the highest quality; tree thrifty, upright grower, very hardy and productive; a fine shipping and market variety. First of July.
- BLACK OREGON**—Excellent black cherry, good pollinizer for Bing, shows well, closely resembles the Bing.
- BLACK REPUBLICAN**—Fruit dark color; rich, solid and an excellent keeper. Middle of July. Pollinizer.
- BLACK TARTARIAN**—Very large, purplish black, half tender; flavor mild and pleasant. Tree vigorous, immense bearer. Ripens last of June. Pollinizer.
- CENTENNIAL**—Very much like the Royal Ann in shape and color. As large, sweet and good. Ripens a few days later. Pollinizer.
- DEACON**—Similar to Black Tartarian in color and size, but superior in texture and shipping qualities. One of the most satisfactory for pollinizing.
- LAMBERT**—Size very large; form roundish, heart-shaped; stem long, slender, suture medium depth, waxy surface smooth, glossy; color dark purplish red, with numerous minute indented russet dots; flesh dark purplish red with whitish veins, meaty and of fine texture; semi-cling, small seed; flavor sweet or very mild sub-acid, aromatic, rich. Quality very good and an excellent shipper.
- ROYAL ANN (Napoleon)**—Fruit large; very dark color, very rich, solid, excellent keeper. Middle of July.

Duke and Morello Cherries

On Mazzard Root

	Each	10	100	1000
2 to 3 ft.....	30c	25c	22½c	17½c

MAKE YOUR SELECTIONS FROM OUR COMPLETE SALES LIST TODAY AND SAVE

The Broadest Guarantee Ever Made . . .

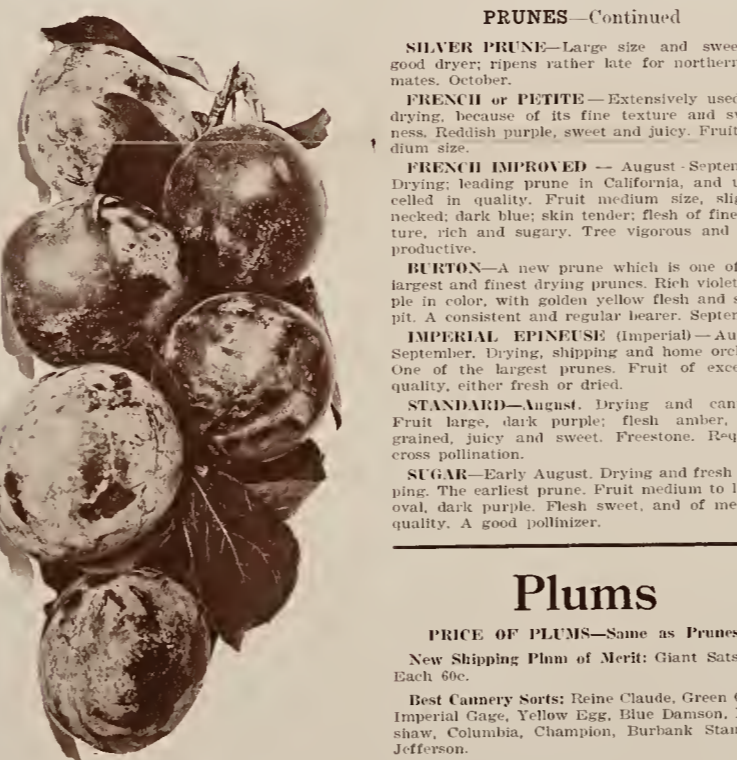

We guarantee every plant, tree, or shrub that we ship out to be free from disease, true-to-name, and to arrive in perfect growing condition. If for any reason whatever, you are not satisfied that you have received 100 cents in value for every dollar sent us, we will refund your money or adjust it to your complete satisfaction. Our policy of "Every Customer a Satisfied Customer" means all that it implies, and we are here to give absolute satisfaction.

Dependability

The CARLTON NURSERY COMPANY OF CARLTON, OREGON, have for the past 46 years been engaged in the growing and shipping of HIGHEST GRADE NURSERY STOCK, to all sections of the country. DEPENDABILITY in trees is not measured by Price; however this list contains Values heretofore not found offered by Reliable Nurserymen. OUR STOCK IS PRICED TO MEET PRESENT CONDITIONS. SUCCESS IN FRUIT AND NUT TREE PLANTING depends solely on the selection of CERTIFIED BUDS from Trees producing quality as well as quantity and to have been budded on the proper variety of Root systems adaptable to various soil conditions. WE ACCEPT THIS RESPONSIBILITY.

OUR STOCK is Cultivated, NOT IRRIGATED. The deep, rich sandy loam of our TUALATIN VALLEY NURSERIES enable us to supply strong, hardy, vigorous trees, with highly developed Root Systems.

We have thousands of satisfied customers and solicit inquiries from new customers and COMMERCIAL PLANTERS. We assure you that your order will receive our careful personal service and attention. Submit your order today.

Prunes

PRICE ON PRUNES AND PLUMS

5 at 10 rate; 50 at 100 rate; 300 at 1000 rate.			
	Each	10	100
3 to 4 ft.....	30c	27c	22½c
4 to 6 ft.....	35c	30c	25c
8 to 8 ft.....	40c	35c	26½c

Standard Commercial Drying Sorts: Italian, Petite, Coates 14-18, Date, Improved French, Burton, Silver, and Imperial.

For Commercial Shippers of Prunes: We offer Early Italian, 2 weeks ahead of Italian. This is a proven profitable sort. Add 5c per tree.

The Budwood for our prune trees is selected from the finest and best strains on the Pacific Slope.

COATES 148; DATE PRUNE; IMPROVED FRENCH PRUNE; Sweeter, larger than French; fine for drying. Reddish purple, juicy.
HUNGARIAN—Largest size, beautiful bright red, one of the best for marketing; not good for drying. September.
ITALIAN (Pellenberg)—Medium to large size, oval, dark purple; flesh juicy, sweet and delicious; a standard drying and shipping variety. September.
CHAMPION—Similar to the Columbia.

PLUMS—Continued

- DAMSON**—August-September. Local market and early home orchard. A tart plum very popular for culinary uses. Fruit small, roundish, dark purple with heavy bloom. Very productive.
- DIARTE**—Late July. Shipping. A blood-red plum of late introduction. Fruit large and elongated; skin a dull red. Flesh firm, deep red, and good quality. (On peach root only).
- HUNGARIAN (Pond)**—August. Shipping. Large dark purplish red; slightly necked; very attractive. Quality fair.
- IMPERIAL GAGE**—Large, greenish, juicy and rich. Very productive. August.
- GREEN GAGE**—A medium small greenish yellow plum of high quality. Mid-season.
- PEACH PLUM**—Fruit large and earliest to ripen; regular, roundish; skin red, dotted with a blue bloom; flesh greenish yellow; tinged with red at maturity; a rich brisk flavor; the leading market variety. Middle of July.
- PRESIDENT**—Large egg-shaped fruits with a beautiful pink skin; flesh yellow and of fine texture; commercial shipping plum. September.
- GIANT SATSUMA**—A wonderful new origination. Largest of all freestone shipping plums. Blood-red flesh as luscious as any ripe ox-heart cherry. A real money maker for shipping and fruit stands.
- MAMMOTH GOLD**—A very large golden yellow plum, overspread with bright carmine blush. A very hardy sort for heavy soils and thin dry slopes.
- JEFFERSON**—Finest of all yellow canning plums. Mid season. Used by commercial canners.
- SANTA ROSA**—Large; purplish crimson; flesh yellow, mottled crimson; very good quality. Excellent for all purposes. Early July.
- SATSUMA**—A very large and well flavored plum with blood red flesh; skin bluish red; very small pit; vigorous and productive. A well known variety much in demand for home canning. July.
- WICKSON**—Large; yellow, shaded crimson; flesh amber colored, juicy and sweet. Early August.
- YELLOW EGG**—Very large; egg shaped, deep golden, excellent for cooking. Late August.

Peaches

All peaches listed are Freestones unless the word cling followed the name.
 Best commercial peach sorts for the Northwest and Pacific Coast. All Freestones.
 Improved Early Elberta, Slappy, J. H. Hale, Rio Oso Gem, Rochester, Elberta.
 "These are money makers."

VARIETIES OF SPECIAL MERIT

Rio Oso Gem Peach
 (U. S. Plant Patent No. 84)

A splendid new peach that ripens during the period when there is no other peach on the market.
 Rio Oso Gem ripens ten days to two weeks after J. H. Hale. Has extreme large size of J. H. Hale, is more highly colored, finer grained in texture, firmer and of better quality than J. H. Hale.

Rio Oso Gem Yearling Schedule

	300

4 to 6 ft. (caliper 1½ in. up)	60c	50c

The New Babcock Peach

The fruit is almost round, somewhat above medium size, and the color ranges from a beautiful pink to deep crimson. The skin is exceptionally smooth and is almost like a Nectarine in this respect. We highly recommend the Babcock either for home planting or as a profitable early market peach. Early June.

Commercial Sorts in Ripening Order: Victor, Mayflower, Alexander, Hales Early, Alton, Triumph, Crawford Special, Rochester, Babcock, Curran, Slappy, South Haven, Elberta Queen, Early Crawford, Charlotte, Foster, Early Imp, Elberta, J. H. Hale, Rio Oso Gem, Indian Blood Cling, Champion, Tuscan Cling, Late Crawford, Elberta, Orange Cling, Improved Muir, Phillips Cling, Phillip Cling, Lovell, Salway, Krummels Oct.

VICTOR—Earliest and most profitable of all early peaches. Largest, smoothest, red skinned, white meated peach of excellent quality. Ships well.

ALEXANDER—One of the finest of the early peaches; greenish-white skin, shaded red; greenish-white flesh, very sweet and juicy. Early June.

MAYFLOWER—The earliest of all peaches. Medium sized, creamy white fruits, mottled with dark red; firm, white, juicy flesh.

HALES EARLY—One of the very best early white peaches. Skin greenish, splashed with red. Flesh white, juicy and sweet. Late June.

ALTON—Early white semi-Freestone; almost a Freestone when ripe; one of hardest surer bearers known; very large, white meated and most delicious fruit.

TRIUMPH—An extra early yellow fleshed peach. Skin very tender; juicy and sweet. July. Freestone.

ORIOLE—Newest, earliest, and most promising of all yellow meated freestone peaches for commercial shipping. Introduced by U. S. D. A.

PEACHES—Continued

- CRAWFORD SPECIAL**—Most wonderful of all early yellow meated Freestone Peaches, ripens two weeks before Early Crawford. Almost 100% fuzzless, beautiful brilliant red markings. An immense bearer of excellent shipping and canning fruit. A real money maker. Comes before most Freestones can reach the market. Our own introduction.
- ROCHESTER**—Has the habits and characteristics of the Crawford, but fully two weeks earlier. Yellow, freestone, good size, very sweet and fine flavor. Requires only half the usual amount of sugar for canning. Does not rot on the trees.
- IMPROVED ROCHESTER**—Yellow freestone, an especially fine type of the Rochester.
- CARMAN**—A general favorite in nearly every peach region on this continent. It is a brilliant red.
- SLAPPY**—Fruit yellow, good keeper; excellent flavor, fine grained, rich. Hardy, best medium early yellow peach. Super-quality.
- ELBERTA QUEEN**—Same as Slappy peach.
- CRAWFORD'S EARLY**—Has all characteristics that gratify the taste. Color, rich red splashed and mottled with darker red and golden yellow. Flesh is beautiful and perfectly free from stone. Matures in mid-season. Vigorous and productive.
- FOSTER**—A Yellow Freestone of the Crawford type. Large, very attractive. Flesh fine grained, sweet, juicy, and delicious. Every home orchard should have this variety.
- CHARLOTTE**—An Improved Early Crawford, ripening three days later, much smoother and a heavier bearer. It is a rich yellow meated Freestone canning peach and bears very regular in the Northwest.
- IMPROVED EARLY ELBERTA**—This peach is the "Queen" of all canning peaches, and no doubt the biggest selling peach on the market. Fruit is a beautiful golden yellow, blending into a glorious deep pink on the sunny side; a strong protecting skin; exceptionally heavy bearer and a wonderful pollinizer for the J. H. Hale. Ripens about two weeks earlier than Elberta. A truly super-quality canning peach.
- J. H. HALE**—Peach growers have demonstrated during the past several years that this is a profitable variety. Fruit is of largest size, highly colored; flesh is yellow, exceedingly firm and yet tender when eaten; flavor is unexcelled. Fruit ships exceedingly well; remains on the tree in a firm condition for a longer time than any other freestone.
- EARLY ELBERTA**—Ripens about a week earlier than Elberta; otherwise the same.
- ELBERTA**—Large yellow, with red cheek; flesh yellow, firm, juicy, of high quality. Exceedingly prolific. Leading market variety.
- GOLDEN JUBILEE**—The wonderful new yellow freestone ripening three weeks before Elberta, which answers the long felt need for a good early yellow freestone. Flesh is firm and delightfully fragrant. By all means, include it in your orchard.
- CHAMPION**—Best of white freestone varieties. Skin creamy-white with red flesh. Extremely hardy and of uniform good quality.
- TUSCAN**—Cling, commercial canning, shipping, and home orchard. Fruit of good size and attractive. Flesh yellow, with some red at pit. Flavor good.
- LATE CRAWFORD**—Shipping, drying, and home orchard. One of our oldest varieties, and still popular as a home orchard sort. A large yellow freestone of excellent quality.
- INDIAN BLOOD**—Home use. A clingstone with deep red flesh. Popular for pickling and other culinary uses.
- SOUTH HAVEN**—A recent introduction. Immense size. Comes into market just before Elberta. Beautiful color and freestone. Very hardy and highly recommended.
- HALE HAVEN**—Freestone. An Imp. South Haven, seems to have a tougher skin and more highly colored. New.
- PAIROO CLING**—Early August. Commercial canning. Almost identical to Peak, but a few days earlier. Fruit large; flesh clear yellow, with only trace of red at pit. Good flavor. Tree productive.
- PEAK CLING**—Early August. Commercial canning. A large yellow cling of good quality. Ripens ten days after Pairoo, and is in favor with canners.
- PHILIPS CLING**—September. Commercial canning. Formerly the leading clingstone. Fruit of good size, with prominent beak; yellow flesh firm, clear yellow to pit; Can be picked over long period. Tree very productive.
- ORANGE CLING**—September. Home canning and shipping. Fruit very large; attractive. Flesh yellow and of good quality. Very productive.
- MUR**—Late August. Drying. Fruit large to very large. Skin yellow, easily peeled. Flesh clear yellow to pit, tender, sweet and mild. A good bearer; resistant to Cur leaf.
- SALWAY**—September. Shipping, drying, and home orchard. Fruit large. Skin greenish yellow with bluish. Flesh yellow; of fairly good quality, with drying, good home fruit.
- KRUMMEL**—October. One of the latest freestone peaches and a profitable market variety. Fruit large, lemon yellow, lightly blushed with carmine; flesh yellow, red at the pit; of excellent quality.

PEARS ON FRENCH ROOT

5 at 10 rate; 50 at 100 rate; 300 at 1000 rate.			
	Each	10	100
2 to 3 ft.....	30c	25c	20c
3 to 4 ft.....	35c	30c	25c
4 to 6 ft.....	40c	35c	27½c

Best Shipping Sorts: Bartlett, Bosc, Comice, Anjou, Seckel, Howell, Winter, Nellis, Flemish Beauty.

Cannery Sort: Bartlett.
Special Note: The New CANNERY RULING eliminates many of the short necked strains of Bartletts. Plant our new strain of Bartlett which easily qualifies in length and diameter.

Hardy Sorts for Re-Grafting: Old Home, Kieffer worked on French root.

New Introductions From New York Experiment Station:

CAYUGA—Large as Bartlett, Seckel color, flavor and quality. GORHAM—Resembles Bartlett in size, color and shape. Keeps month longer, ripens 2 weeks later.

Two Types of Bartlett Pears

Many Bartlett orchards produce the undesirable short type of fruit shown at the right. Our budwood is selected only from trees producing the longer type fruit, or Nelson Strain. Highly recommended by canners in California.

This type of Bartlett will pay 25 to 30% better than the regular type Bartlett.

Sorts marked with a star (*) will keep well through winter months.

CLAPP'S FAVORITE—Large, resembles Bartlett, excellent flavor.

BARTLETT—Large, golden yellow, juicy, buttery.

FLEMISH BEAUTY—Large, juicy, rich, heavy bearer.

BEURRE D'ANJOU—Large, yellow with bluish, good keeper.

DOYENNE DU COMICE—Large, yellowish red, rich and juicy.

SECKLE—Small, brownish green, highly flavored.

BEURRE BOSCH—Large, cinnamon russet, rich and juicy, productive.

KEIFFER—Large, golden yellow, hardy, blight resistant.

WINTER NELLIS—Medium size, yellow covered with russet, very fine.

WINTER BARTLETT—Large, resembles Bartlett.

HOWELL—Commercial sort.

Nectarines

Each prices same as Peaches: 10 and 100 lots 5c additional.

In growth, habit, treatment and soils precisely similar to the peach. Valuable for dessert; smooth skin.

EARLY VIOLET, Medium size, skin yellowish green, with a purplish cheek. Flesh melting, rich and highly flavored. July.

BOSTON—Medium; deep yellow, with a bright bluish and deep mottlings of red; flesh yellow without any red at the stone; sweet, though not rich, with a pleasant and peculiar flavor. Freestone.

NEW WHITE—Large, white with bluish; good quality.

QUETTA—(New, introduced by U. S. Department of Agriculture). Yellow meated and highly colored. Very hardy.

Bingleberry, the Newest and Hardest of All Blackberries

We offer this year for the first time, this wonderful new Blackberry, a cross between the wild Blackberry and Dewberry. In our opinion this is the finest, hardest, most prolific of any Blackberry known. This berry bore a tremendous crop following the cold winter of 1932, when Loganberry, Youngberry and other Blackberries failed in this area.

The berries are large and long, jet black in color, practically seedless and without question the finest flavored berry for pie making that has ever been found. From a single crate of berries more than 14 quarts of solid pack fruit has been canned. We recommend this sort for any cold or warm area.

Strong 2-year plants: Each 25c; 10, \$2.00; 100, \$15.00; 1000, \$90.00.
Plant the Wonderful New Acme Thornless Youngberry (Plant Patent No. 4)
The ACME THORNLESS is superior to the parent thorny type only to the extent that the hard punishing and annoying thorns are not present. In other respects there is little difference, although under favorable conditions bore a far greater yield in 1932 and 1933 than the thorny type in the same field.
Each 20c; 10, \$1.50; 25, \$3.00; 100, \$7.50.

Horseradish Roots
Horseradish thrives everywhere.
Prices: 6, 50c; 12, 75c; 25, \$1.00; 50, \$1.75; 100, \$3.00.
Youngberries
This profitable new fruit yields 20,000 boxes per acre, and up to \$750 profits.
Prices: 1 year: Each, 15c; 5, 70c; 10, \$1.00; 100, \$4.00; 1000, \$25.00.
2 year: Each, 20c; 5, \$1.00; 10, \$1.35; 100, \$9.00; 1000, \$75.00.

NOTE OUR SPECIAL PRICES ON BLACKBERRIES, CURRANTS and GOOSEBERRIES

(Carlton Plants are grown in rich, sandy river bottom soil and are well rooted)

Currants	.15	1.25	7.75	59.50
Gooseberries	.15	1.25	7.50	60.00
Loganberries	.15	1.00	4.25	40.00

CORY THORNLESS BLACKBERRY
Immense large Blackberries of exceptional quality. Completely thornless. (Note price above.)

BLACKBERRIES
Varieties: Crandall's Early (Macatawa), large, firm, sweet, keep well; Evergreen, large, black, sweet, delicious; Himalaya Giant, fruit large, juicy, small seed and core; Lawton, large, black, sweet, very productive; Mammoth, fruit enormous, seeds and core small, soft; Meridian, early, sweet, rich, melting, luscious, without core; Brainerd, a new Blackberry recently introduced by the U. S. Department of Agriculture, productive, high quality fruit. (Note price above.)

LOGANBERRIES
Prize small fruit of the Pacific Coast.

DEWBERRY
Varieties: Lucretia, early, fruit is largest, soft, sweet, no hard core; Gardena, earliest berry, large, fine flavor, productive. (Note price above.)

CURRENT
Varieties: Perfection, berries are large, bright crimson, sub-acid; Fay's Prolific, large bunches, excellent quality of red berries; Cherry, for jelly making; large red berries early, acid. (Price above)

GOOSEBERRY
Varieties: Oregon Champion, large, round, pale green, excellent quality.

BOYSENBERRY
An immense new berry produced by crossing blackberries, raspberries, and loganberries. The flavor is a very pleasing blend of these varieties. It has few and soft seeds. The Boysenberry consistently produces heavy crops, bears young, and the fruiting season lasts two months. The vines are most hardy, drought resistant, and make a strong vigorous growth.
Prices: Prepaid, each 25c; 10 plants \$2.00; 100 plants \$12.00; 1000 plants \$100.00.

Asparagus
Commercial Asparagus growers often make over \$500 per acre.
Varieties: Mary Washington (rust resistant), and Palmetto.

	12	25	100	1000
Prices: 1 year	25c	45c	\$1.55	\$6.50
